**Concurrent Powers In Federal Systems**  
Concurrent powers are powers of a federal system of government shared by both the federal government and each constituent political unit (such as a state or province). These powers may be exercised simultaneously within the same territory, in relation to the same body of citizens, and regarding the same subject-matter. [1]

**Concurrent powers - Wikipedia**  
A number of powers are given to the federal government by the U.S. Constitution, without barring those same powers to each individual state. Such powers as establishing a court system, taxation, and regulating elections are common examples of concurrent powers of federal and state government. Concurrent powers provide for the needs at each level of government in order to keep people safe, deter criminal activities, support the economy, and prevent and punish criminal behavior.
