Osteopathy is a holistic manual therapy & our osteopaths use hands-on techniques to try to help you heal. Practitioners study at university for five years in courses such as anatomy, physiology, pathology and other biomedical sciences. Overall osteopathy is based on the idea that if the body's tissues are in the right anatomical position they will be better able to heal themselves.

What is Osteopathy: A holistic manual therapy

Osteopaths can treat all parts of the body from your head to your toes. It is a holistic manual therapy. Osteopathic treatments can be applied to the joints, muscles, ligaments, tendons and other soft tissue structures and internal organs of the body. All Osteopaths train for four years, qualifying with an BSc honours degree. We study varying subjects including anatomy, physiology, Paediatrics and the various techniques required to help and safely treat people from babies to the elderly.
