Configuring IIS 8 Remote Administration - Sherweb

IIS Administration is the perfect option for remote management. The API is a micro service that runs on the target machine, so by nature it is meant to serve remote requests. Opening up the port that the service listens on is the only step necessary to make remote management

Microsoft IIS Site

One of the first things Web Developers using ASP.NET will want to install on Windows 8 is IIS (Internet Information Services). Windows 8 and Windows 10 ships with a new version of IIS, version 8, lets take a look at installing it. Note: Windows 10 installs IIS version 10 instead of version 8, for obvious reasons. It's the same exact
