International Investment Law And Water

"In conclusion, International Investment Law and Water Resources Management – An Appraisal of Indirect Expropriation provides an interesting and fresh perspective on the analysis of claims of indirect expropriation in sensitive regulatory areas such as water resources management. Although being a relatively short monograph, readers will find it definitely challenging and thought provoking.

International Investment Law and Water Resources ...

On the one hand, investment law and arbitration foster stability and predictability, whereas water law needs adaptability and change. A balance between these two areas of law is hard to reach: domestic water regulators may not know that their decisions may entail the breach of international agreements, and hence fall under the scrutiny of arbitral tribunals.
