Yet the days of the plate planter were numbered. Once representing state-of-the-art design, the plate planter’s accuracy was supplanted by the then revolutionary John Deere finger-pickup meter still sold today. The finger-pickup meter was offered in the 1968 introduction of the 1200 and 1300 series Plateless Planter.

With most old planters the floor plate is often well worn. If it has deep grooves in it you can try one size smaller plate but that is chancy at best. If floor plate is not worn much, you are lucky. Some John Deere planters you can flip the floor plate over and try that, but usually that is for very large seed. #5. Always, always, start with #1.
