Structural changes in the world economy pose challenging new problems for comparative policy analysis. One such problem is the harmonization of domestic policies and institutions, which the Uruguay Round of GATT negotiations has identified as a key principle of international economic relations. Harmonization may mean the creation of a single policy space out of a number of distinct jurisdictions.

Abstract "Subsidization" by member governments occurs in the U.S. federal system, the WTO, and the European Union. These three legal systems have responded very differently to the issues raised by subsidies, from the largely laissez-faire approach of the United States to the elaborate "state aid" rules of the EU to the intricate but weakly enforced rules of the WTO.

This call for papers seeks to offer a comparative perspective of the regulation of fake news and its enforcement. It seeks, in particular, to bring national experiences within a broader framework, and invites contributors to test the idea that the internet is a "aterritorial" space or that internet-users are "citizens of the world" in some way.

CALL FOR BLOG POSTS – REGULATION OF FAKE NEWS AND ITS ...
Abstract. Everywhere in the world, land use law and regulation affect real property values -- either increasing or decreasing them. Regulatory takings is the potential raw nerve of land use regulation, yet policymakers and civic groups have tackled the issue without the perspective that a cross-national exchange of ideologies, laws, and practices can provide.
