A classic work of science fiction by renowned Polish novelist and satirist Stanislaw Lem. When Kris Kelvin arrives at the planet Solaris to study the ocean that covers its surface, he finds a painful, hitherto unconscious memory embodied in the living physical likeness of a long-dead lover.

### Solaris by Stanisław Lem - Goodreads

I'm a bit a fan of Tarkovsky's films and love his (original) version of Solaris. I've also read the Stanislaw Lem novel it was based on and have watched the more recent Steven Soderbergh film remake. This version is different - more true to the novel than either of the films I think - and is thoroughly engaging.
