I have a old Stihl 028
WB that has decided
not to start this year.
With new gas, it tries
to start, but won't even
idle. I rebuilt the
Tillotson carb and it
seems to be getting
fuel. Put in a new spark
plug, but when I
checked that I was
getting spark, there
was only a feeble
yellow spark that

...

The 028 was replaced by the 026, which is basically an upgraded 024. The 026 is a very similar design to the 028 though lighter with the same power. I've said it many times before, the 028 Super is my all time favorite

Chainsaw Reviews and Complaints ...

I have a Stihl 028 WB that seems to have a vent line cut off.

Coming up from the tank it seems like a vent line. This line is cut off to about an inch and a half. Two inches higher is a hole in which a line looks like it runs through. My chainsaw is not starting at all. Has compression and spark. Thanks
