The Stork And The Syringe

The Stork and the Syringe argues that although doctors' approach to infertility is formed in response to the exigencies of the political economy of medical practice, it also accommodates a persistent gender bias: the tendency to regard women's bodies as inviting intervention and men's as demanding caution. This bias is manifest in relation to gametes (eggs and sperm), sex hormones, in the form of medical investigations and treatment, and the frequency and enthusiasm with which the latter are ...

The Stork gladly accepted the invitation and arrived in good time and with a very good appetite. Milo Winter (1919) For dinner the Fox served soup. But it was set out in a very shallow dish, and all the Stork could do was to wet the very tip of his bill. Not a drop of soup could he get. But the Fox lapped it up easily, and, to increase the ...
